

GATEWAY

CAREERS:

Gateway provides students with an opportunity to spend time in a real work environment during school. Gateway is able to provide students with a wide variety of unit standards which cover the majority of Vocational Pathways. Students can be part of the Trades programme and be in the Gateway class, as this will give them an opportunity to gain work experience. The Gateway class is based around the employability formula $E = Q + WE + S + PQ$. This stands for Employability equals Qualifications plus Work Experience plus Skills plus Personal Qualities. Gateway students also have an opportunity to be part of a variety of programmes run in local businesses and assessed by Service IQ. These include spending a day a week at work and completing workbooks at Level 2 for about 10 weeks.

Level 2 GATEWAY

Prerequisite:	Students need to apply and be interviewed by the Co-ordinator to gain entry into this course. School attendance and achievement levels are reviewed as part of the entry criteria. Students are welcome to bring a family member or a friend to the interview for support.
