Trident High School

Apex Programme Application 2024

The APEX programme is dedicated to academic excellence across all subject areas and students are given the opportunity to advance according to their proven ability and capacity in their subjects. Selection for APEX programmes is determined by academic performance both recorded by incoming data from feeder schools and through an entrance test to be completed in Term 4. This will assess student ability in English, Mathematics and Reasoning. The testing is to identify both ability and potential ability in students. Retaining a place in the APEX programme will require students to maintain an excellent work ethic and perform to the best of their ability. Further places may become available in the APEX programme as the year progresses for students who demonstrate the academic ability required.

NAME _____ Intermediate School _____

The student is to complete the first part of the application
